

Here's what you and your many kids owe this senior citizen and taxpayer

I read William R. Larsen's letter with disgust, contempt and dismay. Has Larsen thought anything about the five children he has sired being a burden on MY generation? I am a senior citizen, and I am sick and tired of paying burdensome school taxes so that his five children can attend school.

What do you owe me? Try 22 years of military service at an average wage of \$7,000 per year, years defending your right to complain about those who went before you. Run for whatever political post you wish; you shall never gain the support of the senior citizens of this community.
