

# **N-S misrepresented Larsen's plan**

William Larsen has *never* said the elderly who fall into poverty can use food stamps, Medicaid and Supplemental Security income, as was presented in a news story in The News-Sentinel.

William Larsen is a very concerned and caring person and is not fighting this battle for his own personal gain.

He has worked long and hard to get his message to the people of this district. He is concerned for the future of this country and the young people who will be burdened with high Social Security tax deductions. For every dollar they pay to Social Security, they will receive only 29 cents — if they are lucky.
